

Swedish standard container house wholesale

Overview

What is a container house?

CW Dwellings - Your container home from design to delivery. Why container houses?

Why build houses with containers?

Containers are an excellent building material for houses, as they are designed to withstand heavy internal and external loads under the most adverse conditions that a house would ever have to endure.

What is a 40 ft container home?

Inspired by the home we built on HGTV's Tiny House, Big Living, the Kennedy is a 40FT container home. It includes a bathroom, bedroom, living space, and a kitchen. We offer both a 20ft and 40ft option for our hunting container cabins. These models are built for the rugged outdoors and offer exceptional security.

What is a multi-container custom home?

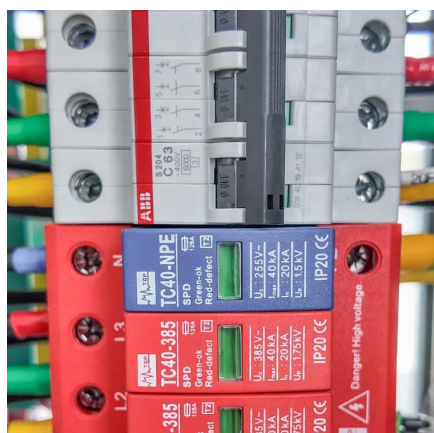

By customer demand, what started as primarily single-unit container homes has quickly grown to multi-container custom homes. Using a combination of stacked or adjoined 20ft and 40ft containers, we will create your dream home with features like full-sized kitchens, multiple bedrooms, and spacious living areas.

How do I choose a container home?

From single-container homes to multi-unit builds, offices, and heavy-duty commercial setups — this is where flexibility meets firepower. Choose a container home model and adjust the sliders to calculate when your rental investment will turn profitable. These values should only be used as estimates AND you own your container home as an asset!
