

Syria s large-capacity uninterruptible power supply

Overview

The centerpiece of this initiative is the construction of five state-of-the-art power plants—four gas-powered and one solar—that will collectively supply over 50% of Syria’s electricity needs, tripling the country’s current capacity.

The centerpiece of this initiative is the construction of five state-of-the-art power plants—four gas-powered and one solar—that will collectively supply over 50% of Syria’s electricity needs, tripling the country’s current capacity.

On May 29, 2025, President Ahmad al-Sharaa witnessed the signing of a \$7 billion memorandum of understanding in Damascus, marking the largest post-war infrastructure investment in Syria’s history. This transformative deal, led by Qatar’s Urbacon Holding alongside a global consortium, promises to.

In a major step toward rebuilding its war-torn energy sector, Syria signed a \$7 billion agreement on Thursday with a consortium of American, Qatari, and Turkish companies to develop power plants that will add 5,000 megawatts (MW) to the national grid, aiming to achieve electricity self-sufficiency.

Syrian President Ahmed al-Sharaa attends the signing ceremony of a memorandum of understanding between the energy ministry and Qatar’s UCC Holding, with the aim of promoting investment in the energy sector, in Damascus, Syria, May 29, 2025. (Reuters) Syria signed a \$7 billion energy deal on.

ERBIL, Kurdistan Region - Syria on Thursday signed a \$7 billion energy agreement with a consortium of American, Qatari, and Turkish companies to deliver 5,000 megawatts of electricity, aiming to significantly boost its power supply and meet the long-term goal of energy self-sufficiency. “The.
