

Thailand Chiang Mai Energy Storage Investment Project

Overview

What is Chiang Mai waste management plant?

The plant aims to provide an efficient waste management solution for Chiang Mai. Mr Tosapol, deputy governor of Chiang Mai, said it is national policy for local authorities to manage community waste.

Are there grid-scale energy storage projects in Thailand?

There are currently few grid-scale energy storage projects in Thailand, although the situation is likely to change. In furtherance of its commitments under the Paris Agreement, the Thai government has enacted policies which envisage renewable energy accounting for the majority of grid capacity and output by 2040.

How long will a Thai-Chinese waste-to-energy power plant take?

The Chiang Mai Authority has backed a Thai-Chinese waste-to-energy power plant that is expected to take two years to complete.

Does Chiang Mai have a community waste management policy?

Mr Tosapol, deputy governor of Chiang Mai, said it is national policy for local authorities to manage community waste. The Ministry of Interior has instructed each province on waste management methods, including the use of smokeless incinerators to generate electricity.
