Uzbekistan's first energy storage facility, with a 150 MW capacity, will launch in the Fergana region in January 2025, according to the National News Agency (UzA). Construction began in the summer of 2024, featuring a storage system with a distribution unit and 90 battery modules. Local suppliers.

Uzbekistan will build a new electricity storage system in the Zangiota district of the Tashkent region under a presidential resolution signed by President Shavkat Mirziyoyev. The document approves measures to implement an investment project for the construction of an electricity storage facility.

Uzbekistan's first utility-scale solar and battery storage facility, the Nur Bukhara PV and BESS project has been officially inaugurated by President Shavkat Mirziyoyev. The project was developed by Abu Dhabi-based Masdar. It pairs a 250 MW solar PV array with a 63 MW/126 MWh battery energy storage.

Sungrow, a renowned leader in renewable energy solutions, has announced a groundbreaking collaboration with the Central Asia Energy Efficiency Center (CEEC) to implement an impressive 150MW/300MWh energy storage project in Uzbekistan. This initiative marks a progressive step towards enhancing.

Tashkent, Uzbekistan, January 24, 2025 /PRNewswire/ – Sungrow, a global leader in

PV inverters and energy storage systems (ESS), in collaboration with China Energy Engineering Corporation (CEEC), is proud to announce the successful commissioning of the Lochin 150MW/300MWh energy storage project in.
