Warranty period: Used containers often have a shorter warranty period (1-5 years) compared to new containers (up to 10 years). Exclusions: Warranties usually do not cover cosmetic issues, improper use, or damage caused by environmental factors. 1. Warranty for new one-way containers New containers.

Whether you're buying a brand-new unit or a certified used one, your purchase is protected by our Limited Warranty, along with our leakproof guarantee. New Refrigerated Units: Used / Refurbished Refrigerated Units: Our reefer containers are covered for both frame and cooling performance—so your.

We guarantee your container will be leak-free for three years and have a 30-day Doors & Floors Money Back Guarantee (minus the trucking costs). The doors will seal and the floors are strong enough to drive a small forklift inside. Every container is guaranteed to have doors that seal properly, and.

An economical and environmentally friendly solution for waste oil storage and containment. Snyder's double wall used oil collection tank systems provide double the protection. Enjoy enhanced operational and environmental safety with Snyder's Used Oil Collection Tanks. Unique tank-in-a-tank. Why should used oil storage containers be covered?

Securely Covered: Always ensure used oil storage containers are securely covered to prevent rainwater contamination. Rainwater contamination degrades the quality of used oil for recycling and can lead to environmental issues. Proper covering is essential for responsible used oil management. Secondary Containment:.

What should a used oil container look like?

These containers should be: Durable and leak-proof: Made of a material that can withstand the weight and chemical properties of used oil without deteriorating or leaking. Clearly labeled: Marked with a visible and permanent label that clearly indicates "Used Oil" to avoid confusion with other materials.

What is a double wall used oil collection tank?

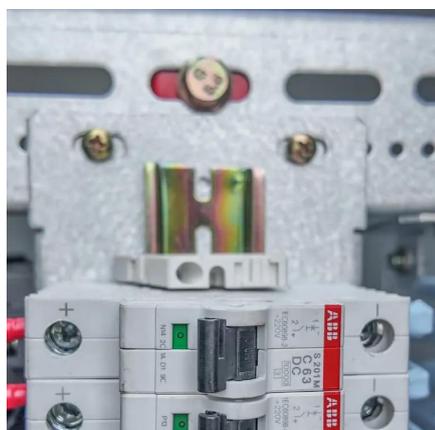

Snyder's double wall used oil collection tank systems provide double the protection. Enjoy enhanced operational and environmental safety with Snyder's Used Oil Collection Tanks. Unique tank-in-a-tank containment system provides 110-115% containment of tanks contents. Primary tank is black, Secondary containment tank is safety yellow.

How do I know if my oil storage container is used?

Clearly labeled: Marked with a visible and permanent label that clearly indicates "Used Oil" to avoid confusion with other materials. Securely Covered: Always ensure used oil storage containers are securely covered to prevent rainwater contamination.
