

What brand of inverter should I use for home solar

Overview

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

What type of solar inverter do I Need?

String inverters, which you may also see referred to as centralized inverters, are the most common, and often the most cost-effective, type of inverter. Your solar panels are arranged in rows or groups called strings. String inverters convert the DC energy produced by each string of solar panels into AC power.

How do I choose the best solar inverter?

Choosing the right inverter is key to maximizing your solar production, increasing your savings, and monitoring the health of your solar system. To find the best inverter for your needs, connect with a solar.com Energy Advisor to review custom designs and proposals. Best Price Guaranteed.

What are the best commercial solar inverters?

Recommended reading for commercial solar inverters: Best Commercial Solar Inverters String inverters, which you may also see referred to as centralized inverters, are the most common, and often the most cost-effective, type of inverter. Your solar panels are arranged in rows or groups called strings.
