

Will wind power storage stop

Overview

Why is Trump halting offshore wind projects?

Trump administration orders halt to offshore wind projects. What it means. The Trump administration has ordered a halt to all work on five offshore wind farms along the Atlantic coast. Interior Secretary Doug Burgum cited national security risks, including radar interference, as the reason for the pause.

Why did Trump suspend leases for five offshore wind projects?

Dec 22 (Reuters) - The Trump administration suspended leases on Monday for five large offshore wind projects that are under construction off the U.S. East Coast over what it called national security concerns, sending shares of offshore wind companies plunging.

Will trump pause a wind farm lease?

The Trump administration on Monday said it would pause leases for five wind farms under construction off the east coast, essentially gutting the country's nascent offshore wind industry in a sharp escalation of President Trump's crusade against the renewable energy source.

Why is the US halting offshore wind energy projects?

The US is immediately pausing leases for offshore wind energy projects currently being built near the Atlantic coastline, citing security concerns. In a statement, the Department of the Interior said it was pausing five large-sale projects to look into how windmills could interfere with radar and create other risks to east coast cities.
