What Are The Benefits?What Are The Options? How Do They Work?Need Help Determining The Heat Pump System That Might Be Best For Your Home?Pairing solar with a cold-climate heat pump can bring many benefits to homes of all types and sizes: 1. Realize Savings. Solar generated power is typically less expensive than power purchased through the grid because there is no need to pay extra for the delivery of electricity. When you pair your solar panels with a cold-climate heat pump you'll t See more on cleanheat.ny.gov
